

Core technology infrastructure for stadiums of the future

bai communications

Comprehensive Wi-Fi 6

- Fastest, most robust Wi-Fi protocol
- Highest access point (AP) capacity
- Backwards compatible
- Facilitates MNO off-load
- Seamless authentication
- Facilitates ad-based revenue
- Facilitates deep analytics

Neutral-host DAS

- Distributed Antenna System (DAS)
- Providing connection for each of the MNOs
- Facilitates seamless connection for visitors and operations
